A Plain Man's Philos phy. BY CHARLES MACEAY,

ve a grinca I can spend, I've a wife, I've a friend; And a troop of fittle children at my knee, John Brown;

Preacottage of my own, With the ivy overgrown, And a garden with a view of the ees, John Brown;

Add a garden with a view of the sets, John Brown;
I can sit at my door
By my shirdy sycamore,
Large of heart, though of very sin ill catate, Julia
Brown;
So o me and drain a glass

In my albor as you pine. And Pil tell you what I love and what I hate, John Brown. I love the song of birds; And the children's early words; And a loving woman's voice, low and sweet, John

Brown;
And I hate a falso precesse.
And the want of common sense,
And arregance, and fawning, and deceir, J.h.a.
Brown.

Brown.
I love the meadow flowers, And I lave an open free without guile, John

Brown;
And I hate a selfi-li knove,
And a proud, contented slave,
And a lost who'd rather borrow then he'd toll

I love a simple stop,
That awakes throtten strong.
And the word of hope that raises thin who faints John Brown And I hate the constant white, Of the foolish who replie,

Vol turn their good to evil by completers, John

Brown. But ever when I hate. If I seek my pard a pate, And survey the work around me, and above, John And street the work around any mind,

The hatred flies my mind,

And I sigh for human kind,

And excuse the faults of these I cannot hate, John

So, if you live my ways, And the confort of my days, I will tell you how I live so unvey'd, John Brown; I never scorn my Lealth,

Nor sell my soul fir went has Nor destroy one day the plansure of the next, John Brown;
I've parted with my pride,
And I take the samy ride,
For I've found it worse than filly to be sad, John

Brown:

1 keep a conscience clear,
Pve a bundred p ands a year,
And I manage to exist and be glad, John Brown The moment a friend, or even a mere acquaintance, is dead, how surely there starts up before us each instance of unkinduces of which we have been guilty towards him. In fact, many an act or word which, while he was in life did not seem to us to be unkind at all, now " bites back" as if it were a serpent and shows us what it really was. Alas! 'twas thus we caused him to suffer who now is dust, and yet then we did not pity or reproach curselves. There is always a bitteroces beyond that of

death in the dying of a fellow creature to whom we have been unjust or unkind.

THE PILOTAGE BILL .-- A bill has been passed be very detrimental to the interests of Newport Up to Thursday alght last upwards of eighty per and to every one connected with commerce here. It will require our vessels bringing molasses from Cuba to take pilots at a high rate of pilotage which would be as unnecessary for them as it would be to take a pilot through the Gulf Stream. The measure is to be gotton up for the benefit of a few at the expense of the five of death death. whole shipping interest of the place. We hope our Sanators will be in their seats to put down so iniquitous a scheme which is wholly uncalled for, and which may be the means of having cargoes of foreign goods landed at other ports which would otherwise be landed here.

APPROPRIATING L ST PROPRIETY. - Not long since a lady in this city lost a gold watch, and advertis, ed it in the Daily News at the earne time notifying the several watchmakers in town, and giving them the number of the watch. She was recently notified by one of there that her watch had been left with him for sepairs, and she accordingly went and plaimed it. The person who found it made the excuse for apprepriating it of not seeing the advertisement. Now if it is not generally under stood, it should be, that it is the duty of persons finding any article of value to advertise it within forty-eight hours, and I ming to do so, they are liable to proscention on a charge of embezzlement

Missionary. - The anniversary of the Mission ary S clery of the Maribura' S reet Methodist Episcopal Church was held resterday. Rev. D. A. Whedon, the pastor, preached on the subject during the day and a general incerting was held to the evening. Addresses were delivered by Re-D. A. Whedon, Rev. Dr. Roardinan, Rev. O. H. Malcom and L. D. Davis. The exercises were of a very interesting character and the contributions in keeping with former years. The music was furnished by the Newport Social Glee Club who accepted the invitation to occupy the orchestra-It is sufficient to say that it was of an excellent character-fully equal to their usual performan-

OPINIONS OF THE PRESE.

The New York Pries Association advertise their reference in our columns to-day. Their offers are tempting to those who have a weakness for lotteries. The original investment is but twenty-five couts, and this entitles every one to non-daing. If, on ascertaining what that something is, the subscriber choses to pay one dolls for expenses, be an obtain the article drawn. We have remon to believe that this association is one of substance and good faith. Much capital is tedied it, and the plan upon which operations are conducted, is carculated to draw a large thare of husinesse. As an example of the good faith of those who manages it, we may state that a lidy of our and in missing list each name a found where, where we was recovered to again.—Sunday Times, Boston, Jan. 13, 1867.

This not a 'Lottery Swindle,' offering 'Hourer and Lota," and '210 roop in Greenbacks," as some do infoncer put such tickers in the wheel, and who de sist give or price in 1200 lickers. Besser, Ray & CO., obstribute thousands of prizer, varying in value from 2100 they draw every day, and no ticket drawsless than one dollar to value. YOU WILL, KNOW WHAT YOUR PRIZE IS BEFORE YOU PAY FOR IT. 'To know the firm personsily, and have witnessed their mode of doing hotiness. Peerless Cooking Stove.

Here is the opinion of the editor of the Boston Journal.—We have been very much pleased in examing a stove of this pat tern, manufactured by Messrs. Prait & Wentworth of R xhary for the Paic Exposition, at the store of W. F. Shaw & Co., 860 Washington Street. It is one of the most beautifully finished articles of is one of the most beautifully masticel articles of kitchen farniture we have ever seen, the mould-ings being etco ficished, the knobs and handles silver plated, the tank and hat closet are made of German silver, all the hollow ware used on the stove is finely coamelled, and the tex-kettle is of

hurntalied copper.

Among the peculiar merits claimed for this stove American corporate ventinitian and even temperature of the oven, making it a reacting rather than a a baking oven, which is second by a peculiarly observed sired-analysis for the analysis for the analysis of time and gainteness of passes down behind the fire put and into the over, causing the oven to bake or reast perfectly and eventy, a great decideration with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This store works equally well with coal or wood. These stores are of different sizes, and are rusale plain to with an extension top, the latter being made with a large reservoir for hat water on the top, and a warming clust underneath. Those of our rarders who would like to keep up with the times would do well to call and examine this "Peerless store."
